Synths

Model D
Pro 1
Neutron
TD 303

Main out

The band requires access to a main PA system, connected via x2 TS or XLR cables. The venue should provide the cables.

Monitoring

The band requires a PA system for monitoring, connected via x2 TS, XLR or RCA cables. The venue should provide the cables.

Power supply

The band requires at least x2 230V power plugs close to central desk. The band brings power extensions to supply the equipment.

Other

The band requires a main desk for the station and 2 supplementary smaller tables for the guitar's FX controllers and keys.
